Dear Mr. Pendleton:

Re: Modification Request for
NPDES General Permit No. ING040231
IDNR Permit No. S-360
Peabody Midwest Mining LLC- Wild Boar
Mine
2180 Tecumseh Road
Lynnville, Indiana 47619
Warrick County

Your NPDES permit Notice of Intent application received on December 14, 2012, requesting modification of the above-referenced permit, has been reviewed. You asked in this submittal that coverage be granted for the following new alkaline outfall, which will catch and capture wastewater from a truck wash on the site's property,:

Outfall 085 (latitude 38°, 10', 56.7", longitude -87°, 16', 33.4), discharging to an unnamed tributary to Big Creek.

The request has been processed in accordance with Section 402 and 405 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, et seq.), and IDEM's permitting authority under IC 13-15. In subsequent conversations and emails clarifying the situation you have stated that no surfactants or other additives will be used with this truck wash. Trucks leaving the property will be rinsed with clean water prior to entering State Highway 61. This water will be routed to a basin that is not expected to discharge. The addition of this outfall to the permit, then, is to ensure that in the event of a storm event any overflow from this pond will be covered. Since no contaminants other than mud and soil from the mine's property is expected to be present in this water our office concurs that the addition of the new outfall will not affect Peabody Midwest Mining LLC's Wild Boar Mine's eligibility for coverage under the general permit rules outlined in 327 IAC 15-1 through 15-4 and 327 IAC 15-7, Facilities Engaged in Mining of Coal, Coal Processing, and Reclamation Activities, nor will the additional outfall point affect the site's ability to meet the reporting requirements. Therefore your petition to add new Outfall 085 has been approved in accordance with Indiana Rules promulgated under 327 IAC15-7. Coverage for the facility will now include all outfalls listed on the first table of Attachment 1 to this correspondence.

The NPDES general permit identification number assigned to this facility in the previous approval will continue to apply, as will all other testing and reporting that are required under 327 IAC 15-7 using the forms that were sent to you previously. Additional forms are attached to this letter for use with these new outfalls. You should duplicate them as needed. Should you need additional copies of this form it is also available on the internet at the following web site:

<http://www.in.gov/idem/5104.htm>

327 IAC 15-7 is also available on the internet at the following website:

<http://www.in.gov/idem/4087.htm>

Additionally, you will continue to receive the computer generated preprinted federal NPDES DMR forms. Both the state and federal forms need to be completed and submitted on a routine basis. If you do not receive the preprinted DMR forms in a timely manner, please call this office at 317-232-8670.

These modifications shall be deemed effective on **February 1, 2013**, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under 327 IAC 15-7 for all remaining outfalls remains effective, and will expire on **August 31, 2013**. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that any person who is adversely affected or aggrieved by approval under the cited NPDES general permit rule may, within eighteen (18) days from the mailing date of this notification, appeal this acceptance by filing a written petition for administrative review with the Office of Environmental Adjudication, in accordance with IC 4-21.5-3-7. This petition constitutes a request for an adjudicatory hearing. The procedure for appeal is outlined in more detail on the attached page.

The Office of Environmental Adjudication will provide parties who request review of this approval with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

If you have any questions regarding this letter, please contact Ms. Sheri L. Jordan of our office at (317) 232-8703.

Sincerely,

Catherine Hess, Chief
